Support Crew Information – 3M3D

Support crews are neither required nor necessary as the checkpoints provide competitors with sufficient access to their race needs. If you do chose to have a support crew, they are permitted to assist runners anywhere along the course where vehicle access is available.

The support crew is responsible for obtaining their own maps and directions to the various locations. Please do some forward planning in this regard – do not bother the race director, checkpoint marshals or volunteers on race day with questions on how to navigate around the course. Obey all road rules. Watch out for runners on the road – the roads are often narrow and windy.

Where can support crew vehicles NOT go?

Marathon 1:
Between Wright's Lookout and Speewah Campground,
Snake Gulley Track
**Marathon 2:**
Viviers Track
From the gate on the one end of Bridle Creek Road to the gate on the other end.
Cairns Marathon (Marathon 3):
Lake Morris Road – the road is open to local traffic only.

Barron Gorge National Park

Finish Line – Goomboora Park

Please note that there is very limited parking at Goomboora Park. Competitors, support crew, volunteers and spectators MUST abide to the following conditions as if we do not meet the requirements set by Cairns Regional Council, we will NOT get access to the area in the future!

Do not park your vehicle in Goomboora Park itself. It is a local park used by the community. There is also a dog walking area, and those parking spots must remain open for those park users.

Try to share a ride where possible. Park on the streets surrounding Goomboora Park, without obstructing the local residents' driveways!
